# Selection sort → Sorting in descending order

 Medium  2 minutes 

561 users solved this problem. Latest completion was about 11 hours ago.

How many exchanges are needed to sort the following integer array in descending order using selection sort? The algorithm fills the sorted subarray from left to right and does not exchange elements with itself.

```
1 | { 1, 2, 3, 4, 6, 5, 4 }
```
