12361 users solved this problem. Latest completion was 8 minutes ago.

The code snippet below needs debugging. Examine it and write down the line number on which the compilation of code will stop.

```
1 | print( "The quick brown fox" ) # 1
2 | print()                       # 2
3 | print'jumps')                 # 3
4 | pint()                        # 4
5 | print( ' over the lazy dog  ) # 5
```
