Iterating over arrays → Select loops

Medium 2 minutes

12650 users solved this problem. Latest completion was 1 day ago.

Select all loops which print each element of an array named `nums`. The array contains only four numbers.

Report a typo

Select one or more options from the list

- ☒ `for (int i = 0; i < nums.length; i++) { System.out.println(nums[i]); }`
- ☒ `for (int i = nums.length - 1; i >= 0; i--) { System.out.println(nums[i]); }`
- ☐ `for (int i = 0; i <= 3; i++) { System.out.println(nums[0]); }`
- ☐ `for (int i = 1; i <= 3; i++) { System.out.println(nums[i]); }`
- ☒ `for (int i = 0; i <= 3; i++) { System.out.println(nums[i]); }`

Correct.
