

Java → Basic syntax and simple programs → Control flow statements → Ternary operator

# Ternary operator → Find the maximum of two numbers

Medium 1 minute ?

3357 users solved this problem. Latest completion was about 20 hours ago.

Select all correct ways to write an expression to find the max of two integer numbers `a` and `b` using ternary operator.

Report a typo

Select one or more options from the list

- ☐ `int max = a > b ? b : a;`
- ☒ `int max = a > b ? a : b;`
- ☒ `int max = a < b ? b : a;`
- ☐ `int max = a > b !? a : b;`
- ☐ `int max = a : b ? a > b;`

Correct.
