Write a program that gets information about a movie from the input and presents in the following format:

```
movie (dir. director) came out in year
```

The input format:

3 lines: first the title of the movie, then the name of the director and then the year of its release.

Report a typo

Sample Input 1:

```
Fight Club
David Fincher
1999
```

Sample Output 1:

```
Fight Club (dir. David Fincher) came out in 1999
```

Write a program

[Code Editor](#) [IDE](#)

Python

```
1 title_of_movie = input()
2 name_of_director = input()
3 year_of_product = input()
4
5 print(f'{title_of_movie} (dir. {name_of_director}) came out in {year_of_product}')
6
```

✓ Correct.
