Defining classes → Books

Easy 1 minute

9174 users solved this problem. Latest completion was about 2 hours ago.

Write a class named `Book`. It must have three fields: string field `title`, int field `yearOfPublishing` and boolean field `isAvailable`.

Report a typo

Write a program

[Code Editor](#) [IDE](#)

```
1 // write your class here
2 class Book {
3     String title;
4     int yearOfPublishing;
5     boolean isAvailable;
6 }
7
```

Java

✓ Correct.
