

Java → Object-oriented programming → Serialization → Custom serialization

Custom serialization → Included fields

Medium 1 minute ?

731 users solved this problem. Latest completion was about 17 hours ago.

Select fields that will be included in the serialized form of an object:

Report a typo

Select one or more options from the list

- ☐ volatile transient final int i;
- ☒ private final int i;
- ☐ public static int i;
- ☒ public final int i;
- ☐ public transient int i;

Correct.

60 users liked this problem. 10 didn't like it. What about you?

oh, which part does it say so?
i read examples of transient keyword usage with public modifier in here

<https://howtodoinjava.com/java/basics/transient-keyword-in-java-with-real-time-example/>
