# Primitive and reference types → The assignment

 Medium  1 minute 

Here is a snippet of code with several variables:

```
1  int a = 100;
2  int b = a;
3
4  String c = new String("abc");
5  String d = c;
```

Select all correct statements.

 Report a typo

 Select one or more options from the list

- ☐ The variables c and d store the same value "abc".
- ☒ The variables a and b store the same value 100.
- ☐ The variables a and b have reference to the same value 100.
- ☒ The variables c and d have reference to the same value "abc".

 Correct.
