# Iterating over arrays → Select one loop

 Medium  1 minute 

5390 users solved this problem. Latest completion was 1 day ago.

Given the following array of characters:

```
1 | char[] chars = { 'a', 'b', 'c', 'd', 'e' };
```

Select one loop which prints only two characters of the array.

 Report a typo

↩ Select one option from the list

- ☐ for (int i = chars.length - 1; i < chars.length; i++) { System.out.println(chars[i]); }
- ☐ for (int i = 3; i < chars.length; i++) { System.out.println(chars[i]); }
- ☐ for (int i = 2; i >= 0; i--) { System.out.println(chars[i]); }
- ☐ int i = 2; while (i < 3) { System.out.println(chars[i]); i++; }

✓ Correct.
