

Python → Errors and exceptions → [Errors](#)

Errors → English contractions

Easy 2 minutes

5339 users solved this problem. Latest completion was about 1 hour ago.

Lucy is drawing a poster with English contractions for her students. We will join her English club and help with learning materials.

Print the following strings with contractions:

```
1 I am = I'm
2 I have = I've
3 I will = I'll
4 I had / would = I'd
```

Each string should be on a new line. This will be easy if you use quotes wisely.

[Report a typo](#)

Write a program

[Code Editor](#) [IDE](#)

```
1 print("""I am = I'm
2 I have = I've
3 I will = I'll
4 I had / would = I'd""")
5
```

Python

✓ Correct.

That's an awesome solution! What do you think about showing it off? [Post it to Solutions](#) so other learners can enjoy it too.
