Bubble sort → Bubble sort in ascending order

 Medium  2 minutes 

971 users solved this problem. Latest completion was about 3 hours ago.

Given the following array of integers:

```
1 | { 12, 20, 11, 10, 14, 16, 15, 10 }
```

We sort the array using bubble sort in the ascending order from the left to right.

Perform two full iterations of the algorithm and output the elements after all swaps.

The output format example:

```
1 | 12 20 11 10 14 16 15 10
```

 Report a typo

 Enter a short text

11 10 12 14 15 10 16 20

✓ Correct.
