

# Introduction to Java → Hello!

Medium 1 minute

57284 users solved this problem. Latest completion was about 1 hour ago.

Copy the given code to the text area below and put your name instead of `<NAME>` (e.g. `John` ).

Use **only** English letters to write the name. Your solution should not contain `<>` .

```
1 class Main {
2     public static void main(String[] args) {
3         System.out.println("Hello, <NAME>!");
4     }
5 }
```

Then click **Run** button (or **Check** if in IDE).

Now, you do not need to understand how this code works, just enjoy it! :)
