Here is a class `Dog` and some of its methods.

```
1 class Dog:
2     def __init__(self, name):
3         self.name = name
4
5     def bark(self, count):
6         return "woof " * count
7
8     def greet(person, self):
9         print("wags tail")
10
11
12
13     def play():
14
15         print("throw a stick!")
16
17
18
19     def sleep(self):
20
21         print("zzz")
```

Which of the methods are defined correctly and according to conventions?

Report a typo

Select one or more options from the list

- ☒ bark
- ☐ greet
- ☐ play
- ☒ sleep

Correct.
