

Python → Collections → Indexes

Indexes → Sequence items

 Medium  1 minute 

10842 users solved this problem. Latest completion was about 1 hour ago.

Given the sequence `seq`, match its elements with corresponding indexes.

 Report a typo

✓ Match the items from left and right columns

the next-to-last element	<code>len(seq) - 2</code>		
the last element	<code>len(seq) - 1</code>		
the second element	<code>-len(seq) + 1</code>		
the first element	<code>-len(seq)</code>		

✓ Correct.
