Write, compile, and run → Platform independence

Easy 28 seconds ?

5606 users solved this problem. Latest completion was 1 day ago.

Select a correct statement about **platform independence** in Java world.

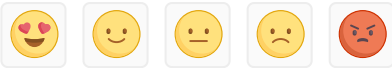

[Report a typo](#)

Select one option from the list

- ☐ Programs are executed on the Java Virtual Machine to reach platform independence.
- ☐ Programs have a special syntax to reach platform independence.
- ☐ Programs are directly dependent on the computer's hardware and the operating system.
- ☐ Programs are executed on the Java Virtual Machine if the operating system is not Linux.

✓ **Correct.**
