

Java → Basic syntax and simple programs → Arrays → Array

Array → Initializing an array of characters

Easy 1 minute

11996 users solved this problem. Latest completion was about 24 hours ago.

Create an array of chars named `characters` with four elements `'a', 'z', 'e', 'd'` and output it.

Use the provided code template.

Write a program

[Code Editor](#) [IDE](#)

```
1 import java.util.Arrays;
2
3 public class Main {
4
5     public static void main(String[] args) {
6
7         char[] characters;
8         characters = new char[] {'a', 'z', 'e', 'd'};
9         System.out.println(Arrays.toString(characters));
10    }
11 }
12
```

Java

✓ Correct.
