Counting sort → Statements

Easy 24 seconds

251 users solved this problem. Latest completion was 4 days ago.

Select all correct statements about counting sort.

Report a typo

Select one or more options from the list

- ☐ It cannot be stable.
- ☒ It requires additional memory to store an array containing counts of elements in the input array.
- ☒ It doesn't compare array elements at all.
- ☐ The time complexity is not better than $O(n \log n)$.

✓ Correct.
