

Python → Control flow statements → [Else statement](#)

Else statement → Single-line if

Easy 1 minute

5610 users solved this problem. Latest completion was about 6 hours ago.

Consider the code below and find matches between its fragments and the parts of conditional expression.

```
1 # positive numbers
2 print(True) if x >= 0 else print(False)
```

Report a typo

Match the items from left and right columns

condition	x >= 0	↑	↓
first alternative	print(True)	↑	↓
second alternative	print(False)	↑	↓

✓ Correct.
