Annotations → Entity

Hard 1 minute

1471 users solved this problem. Latest completion was about 15 hours ago.

An external annotation `@Entity` has one string element named `name`. The element has a default value (the empty string). How can you mark a class with this annotation? Select all correct ways.

Report a typo

↵ Select one or more options from the list

- ☒ `@Entity(name = "MyEntity")`
- ☐ `@Entity("MyEntity")`
- ☒ `@Entity`
- ☐ `@Entity(value = "MyEntity")`

✓ Correct.
