

Merge sort → Statements

Easy 1 minute

1346 users solved this problem. Latest completion was about 4 hours ago.

Select one correct statement about merge sort.

Report a typo

Select one option from the list

- ☐ The bottom-up and the top-down implementations have the same worst-case time complexity.
- ☐ Merge sort is **unstable**.
- ☐ The **merge** operation can merge subarrays only with the same size.
- ☐ The merge operation takes two unsorted arrays and produces a new sorted array containing exactly half of the elements from both input array.

✓ Correct.
