

Spanning trees → Mandatory edges

Medium 1 minute ?

489 users solved this problem. Latest completion was about 13 hours ago.

Given below is a connected unweighted graph:

The graph has several spanning trees. But some of the edges of the graph have to be included in any of them. Find all such edges and print them to the field below. Your output is expected to be in the following format (each edge on a separate line):

```
1 | 0 1
2 | 1 2
3 | 2 3
```
