

Binary heap → Statements

 Hard  2 minutes 

224 users solved this problem. Latest completion was about 7 hours ago.

Choose the correct statements:

 Report a typo

 Select one or more options from the list

- ☐ It will take $O(\log n)$ time to check if there is an item in the binary heap.
- ☒ Min-heap can be converted to max-heap in $O(n)$.
- ☐ If you re-hang a binary heap to a different node, you will get a correct binary heap.
- ☒ The depth of a binary heap is unambiguously determined by the number of elements in the heap.

 Correct.
