

Introduction to OOP → Statements

Medium 1 minute ?

8066 users solved this problem. Latest completion was about 4 hours ago.

Select all correct statements about **classes** and **objects**.

Report a typo

Select one or more options from the list

- ☐ An object always has fields.
- ☐ As a rule, the internal state of an object is open for the whole world.
- ☒ A class describes a common structure for a set of objects.
- ☒ Fields store the state of an object.

Correct.
