Bubble sort → Bubble sort in descending order

Medium 2 minutes

961 users solved this problem. Latest completion was about 18 hours ago.

Given the following array of integers:

```
1 | { 1, 2, 3, 4, 5, 6 }
```

We sort the array using bubble sort in the descending order from the left to right.

Perform three full iterations of the algorithm and output the elements after all swaps.

The output format example:

```
1 | 1 2 3 4 5 6
```

Report a typo

Enter a short text

4 5 6 3 2 1

✓ Correct.
