Java → Essential standard classes → Standard classes for computations → Random

Random → Choose a correct invocation

📊 Medium   🕐 1 minute   ❓

Here's an instance of `Random` :

```
1    Random random = new Random();
```

Which line represents the way to invoke the `nextInt` method to generate a number from 10 (lower) to 100 (upper) including both borders?

📄 Report a typo

↧ Select one option from the list

⭘ random.nextInt(upper - lower + 1) + lower

⭘ random.nextInt(lower, upper + 1)

⭘ random.nextInt(upper - lower) + lower + 1

⭘ random.nextInt(upper - lower) + lower

⭘ random.nextInt(lower) + upper

✓ Correct.
