Python → Data types and operations → Strings → Basic string methods

Basic string methods → Solve a case

▮ Easy   🕐 1 minute   ❓

Some of the methods we have learned result in similar strings. Match their outputs for the phrase `"Elementary, my dear Watson"` .

🗋 Report a typo

↳ Match the items from left and right columns

capitalize()	"Elementary, my dear watson"	↑	↓
title()	"Elementary, My Dear Watson"	↑	↓
swapcase()	"eLEMENTARY, MY DEAR wATSON"	↑	↓

✓ Correct.
