Given the following array of integers:

```
1   { 12, 20, 11, 10, 14, 16, 15, 10 }
```

We sort the array using **insertion sort** in the **ascending order**.

Output the array elements at the iteration when the sorted part consists of five elements.

The output format:

```
1   12 20 11 10 14 16 15 10
