Algorithms → Sorting algorithms → Insertion sort

Insertion sort → Sorting numbers

▪ Medium   🕐 1 minute   ⍰

Given the following array of integers:

```
1    { 20, 18, 16, 15, 14, 12, 10 }
```

We sort the array using **insertion sort** in the **ascending order**.

Output the array elements at the iteration when the sorted part consists of four elements.

The output format:

```
1    20 18 16 15 14 12 10
```
