Python → Functions → Declaring a function

Declaring a function → The Sum of 2

📶 Medium   🕐 1 minute   ❓

Implement a function `get_sum(a, b)` that will return the sum of two numbers.

Don't bother about input/output. You just have to implement the function which will return a value. Please, do not rename the function.

📄 Report a typo

Sample Input 1:

```
8  11
```

Sample Output 1:

```
19
```

↳ Write a program

Code Editor   IDE

```Python
1   # implement the function below
2   def get_sum(a, b):
3       return a + b
4
```

✓ Correct.
