Python → Control flow statements → Else statement

Else statement → Execution

Easy · ⏱ 27 seconds ❓

When is the code from an `else` block executed?

📄 Report a typo

↧ Select one option from the list

○ immediately after the code from an `if` statement is run

○ it is run independently of an `if` statement

○ when the value of condition is `False`

○ when the value of condition is `True`

✓ Correct.
